CANstruction Competition Provides Food For Shelters

Stephanie Stutzman Feb 27, 2017 0

CANstruction is accepting entries for its fourth annual CANstruction Long Beach competition.

The organization collects unused food and canned goods to benefit the Food Finders Food Rescue/Food Bank.

Each team must supply its own cans for design construction. At the end of the competition, the cans will be transported to a Food Finders warehouse. Awards will be presented after the structures are dismantled.

The deadline to register is July 31 and the competition takes place on Sep. 21. The cost of entry is \$395 and the space is limited to seven teams. Visit canstruction.org for more information.
